

CONSTRUCTION PROJECT MANAGER COURSE APPLICATION

OVERVIEW

AGC's Construction Project Manager Course is an interactive program that explores the critical areas of project management that seasoned project managers tackle on a daily basis. The course builds on itself, starting with the impact planning has on the overall project and moving on to scheduling, productivity and subcontractor/vendor management. The program covers legal issues, and much more. The course content is updated on a regular basis to keep current with industry trends and offers turnkey solutions participants can take back to share with colleagues. Prior to being considered each registrant must complete an application packet.

REQUIREMENTS

- A minimum of six (6) years of construction experience or two (2) years of construction experience and a Bachelor's degree are required to attend this course.
